

Level 3 DVC 2024: first challenge

Spend some time looking at the following types of architecture....

1. Floating architecture

Follow this link and choose 2 – 3 favourite examples.

<https://www.designboom.com/tag/floating-architecture-and-artificial-islands/#:~:text=floating%20architecture%20includes%20built%2C%20buoyant,diverse%20materials%20and%20unconventional%20forms.>

2. Socially conscious architecture

Do a google search for “socially conscious architecture.”

Choose 2 – 3 favourite examples.

3. Immersive Architecture

Follow this link and choose 2 – 3 interesting examples.

<https://www.archdaily.com/tag/immersive>

4. Your choice

Find 2 – 3 examples of architecture that you admire.

Make a document which shows your favourite ideas from the above.
You will have between 8 and 12 different examples on your document.

Make sure you include the name of each building/project.

You will be sharing your document with the other Level 3 students.

It will form the basis for discussion about how we get started on our year-long project.
